

Shri Debashis Sen, IAS
Additional Chief Secretary to
the Govt. of West Bengal &
Chairman, Nabadiganta
Industrial Township Authority

The Constitution provides for an Industrial Township Authority under Article 243Q. Nabadiganta Industrial Township Authority was created in January 2006 under this mandate and under provisions of Chapter XXVA and Section 385A of the West Bengal Municipal Act 1993. It is spread over an area of 432 acres.

A unique characteristic of Nabadiganta is that while its resident population is estimated to be 900, the floating population is 1 lakh. All these commuters work in the service sector consisting of IT/ITeS, Financial Institutions, Telecom, Healthcare and Food Services. There are few other establishments too. NDITA is responsible for water supply, sewerage, roads, solid waste management, street lighting, street sweeping, furnishing of building plans and collection of property tax and fees.

Being the showcase of economic activity generator of West Bengal, Government of West Bengal has laid special emphasis in making this a World Class Destination. The recently completed Ring Road has a beautiful street architecture. Further, efforts are being taken in beautifying the township and by putting up way-finding signages and pathways, to make it a destination that will be suitable for world class professionals.

Some of the other new initiatives include extending public Wi Fi in the main airport bound Salt Lake By Pass, use of energy efficiency, lighting, designing of a Town Hall, construction of multi-level car parking with food court, laying underground ducts for diverting Cable TV and OFC under the ground, encouraging green transportation and introducing separate cycle tracks.

A special initiative is also being taken for making Nabadiganta a green and sustainable habitat. A beginning is being made by encouraging reuse of waste water, creating renewable energy sources and using energy efficient appliances.

I call upon all citizens and visitors of Nabadiganta to contribute towards the goal of making Nabadiganta India's Silicon Valley
